

Clean-out procedures for Feeding Equipment

MCDL 7-25-15

1. Record date, feeds used and person responsible for clean-out
2. Feed Mixers
 - a. Empty feed mixer of its contents
 - b. Mix 500 pounds of a wet feed (Gluten or silage) with 500 pounds of coarse ground dry feed (hay) in the mixer for 3 minutes and fully empty the mixer prior to loading the feed for the program cattle

OR

Sequence feed mixer loads to provide at least one load containing no controlled ingredients between a controlled ingredient load and the load of feed designated for program cattle.

1. Record the order of the load sequences, the pens fed and the rations they contained.
